

Real-Time Server Monitoring

Infrastruktur pemantauan performa server secara langsung menggunakan Prometheus dan Grafana Dashboard.

```

```

Implementation By BRIAN

Prometheus Target Health (Port 9090)

Memantau status koneksi scrape target node secara aktif dan real-time.

Sep 22 13:05:24

Grafana: Node Exporter Full Detail

Pemantauan CPU, RAM, Disk, dan Load Average per host secara komprehensif.

Oracle Load Monitoring

Custom dashboard salah satunya untuk melacak beban request, proses aktif, dan suhu perangkat keras Oracle.

Keunggulan Sistem Monitoring

Real-Time Visibility

Melihat kondisi server dan beban kerja secara langsung tanpa jeda.

Custom Dashboard

Menyesuaikan metrik khusus seperti salah satu contoh load Oracle sesuai kebutuhan operasional.

Preventive Action

Deteksi dini masalah performa sebelum berdampak pada layanan utama.

Monitoring Real Time

Deteksi masalah, performa, dan bottle neck server dari awal
